STATINTL

STAT I again discussed with [] his thoughts on the question of the subordination of OSA communications to the O/CO. [] indicates that OSA activities are constantly evolving and that he is not convinced, at this time, that placing OSA communications under his direct control would be the best solution. He wishes to firm up his thoughts a bit more and will then start work on a paper which will indicate his recommendation. He agreed that we should stall the matter a bit more pending the resolution of his own reasoning with respect to the problem.
